Code
WL-N-R2-D1.5-S
Elevation
8000
Aspect Range
NE-E-S
Latitude
45.80680
Longitude
-110.92300
Notes

Observed widespread natural wet loose slides, D1-D2, from Bridger Peak to north of Frazier Basin. Biggest on E-SE aspects in large terrain in northern Bridgers. Wet snow on NE up to 8,000 feet. Saw one maybe recent (poor viz) D2 slab in bowl south of Naya Nuki and some fresh small cornice fall/slabs at ridgeline. Widespread, but nothing major destructive.

Multiple Avalanches
