deep slab north side mt blackmore

Date
Mon, 03/11/2024 - 09:15
Activity
Skiing

Cornice fall triggered a big one. Looks to be real fresh. last night or this morning Broke across the whole bowl and up to 8 feet deep maybe more right in the middle Broken trees in the debris, And ran out of sight.

Region
Northern Gallatin
Location (from list)
Mt Blackmore
