Wind Slab avalanches in Frazier Basin

Date
Wed, 03/27/2024 - 10:05
Activity
Skiing

From IG: Very touchy on Hollywood wall this morning. All slopes easily propagated 4-6” deep on a firm bed surface. Most were less than 50’ wide with the exception of the slide in the couloir which propagated down the entire couloir, maybe 500’ wide, and ran through the exits into the main bowl.

Region
Bridger Range
Location (from list)
Frazier Basin
Observer Name
Max Cohen
