

## Avalanche in Goose Crk near Cooke

Goose Creek

Cooke City

1/9/2021

Code

SS-N-R2-D1.5-O

Elevation

9000

Aspect

N

Latitude

45.09230

Longitude

-109.95100

Notes

From email: "We suspect this happened fresh today, we wonder if those animal tracks coming in from the left triggered it. North facing, 2 ft crown, (I'd guess), about 9k feet, facing Goose Creek. So our friends (while ski cutting) triggered a very similar [slide](#) on this same [aspect](#)/elevation mid afternoon today, about 1/4 mile farther west along this ridge, looked to be same depth."
