

Maid of the Mist Basin

Date

Wed, 02/02/2022 - 11:15

Activity

Skiing

Dug in Maid of the Mist Basin. Aspect 100 degrees. Elevation: around 9500. HS 165cm. ECTX. Quick shovel shear test produced no planar results. Very isolated and stubborn soft slabs high along ridge top in predictable locations. These were only a couple of inches thick.

Region

Northern Gallatin

Location (from list)

Maid of the Mist

Observer Name

Porter Crockard
