

Snowpit Test Results near Texas Meadows

Date

Wed, 01/11/2023 - 13:15

Activity

Skiing

Today on a west aspect around 7,835' in the Bridgers, near the top of Texas Meadows my party had test results of CT28 (SC) and ECTP25 both at 20 centimeters up from the ground. Snow pits my party dug on other aspects in the area had unremarkable results.

Region

Bridger Range

Location (from list)

Texas Meadow

Observer Name

Meaghann Gaffney
