

Wind in the Bridgers

Date

Fri, 02/23/2024 - 16:20

Activity

Snowmobiling

The snow ranger crew was out in the Bridgers today, mostly lower down in the Throne and Naya Nuki areas. The wind was very strong all day long and even in the woods our tracks were filling lightly from wind transported snow. We could see a fair amount of snow blowing over the ridge top and some very textured looking snow higher up. We did not see any recent avalanches.

Region

Bridger Range

Location (from list)

Naya Nuki Bowl

Observer Name

K. Marvinney
