

Natural Avalanche in Beehive Basin

Beehive Basin

Northern Madison

3/2/2024

Code

NC-R2-D2-I

Aspect

E

Latitude

45.34070

Longitude

-111.39100

Notes

From obs: "Noticed the pictured recent avalanche on an east facing [aspect](#) in the alpine of Beehive Basin. I would estimate it at a D2 size [slide](#). It seems to have been naturally triggered by [cornice](#) fall and likely stepped down to older [faceted snow](#) deeper in the snowpack."

Number of slides

1

Number caught
